LIVE BURN COMING UP SOON...REGISTER NOW! Annual MAPC Structural/Mobile Property Live Burn Seminar

The time is drawing near again for the annual one day MAPC structural/mobile property seminar! This one day seminar is intended for insurance personnel, police, fire officials and persons involved in the investigation of incendiary and accidental fire causes. This year's seminar will include a live burn demonstration involving a vehicle inside of a garage as well as a kitchen and bedroom structure. The structures will be electrically wired and energized to look for signs of arcing after the fire. Various other motor vehicles and watercrafts will also be burned. New this year are a vehicle "cowl ignitable liquid pour", "under hood heat exchanger" exhibits, and pre-burned structure flooring ignitable liquid samples with laboratory sample results.

We are also pleased to announce that as well as a certificate through the MAPC for all attendees, the seminar will be certified through the Michigan Firefighters Training Council – Fire Marshal Division, therefore certified fire inspectors will receive points for attendance and police officers will receive MCOLES Certification. We hope to see you there on June 10th 2011 at 8:30 a.m. at the Auto Salvage Auction in Davison, MI. **For more information and to register, [click here.](#)**
